

# Question- Answer

## What are the most important advantages of investing in securities?

- Rooting the habit of saving away from consumption.
- The possibility of monetizing the investment easily.
- Diversification of investment in more than one company.
- The possibility of obtaining a return on cash and capital.

# Question- Answer

**What is "initial margin"? And what is the "buy and sell margin"? And what is the "maintenance margin"?**

- Initial margin is the amount paid by the client as a percentage of the market value of the securities to be purchased.
- The buying and selling margin is the difference between the selling price and the buying price and represents the broker's profit.
- Maintenance margin is the customer's contribution to the market value of the securities at any time after purchase.
